- What does Safety Card project stand for?
- Kick-off meeting in Zagreb - October 6-7, 2014 Croatia
- 2nd Partnership meeting in Finland December 7-8, 2014

What does INCOM-VET stand for?

The project will increase mobility and exchange of knowledge and experience between participating institutions, as well as improvement of level of safety at work in the field of lifting in all three participating countries. All this will assure strengthening of safety at work on international level and through newly developed whole life learning program helps to achieve protection of life and health of people, advancement in whole society, sustainable economic development and social cohesion. Project purpose is creation of unique certificate in form of Safety Card, which is applicable in the field of lifting and recognizable even outside of project participating countries and decrease in number of work related injuries in that field of work.

Safety is one aspect of propagation, which is especially important when working in different countries. The Centre for Occupational Safety in Finland has been pointed out, that when mobility is growing in EU, it is very important that f. ex. in the field of lifting or in construction branch there is some kind of common rules how to work.

Foreseen outcomes of the Project:

Three institutions from three different European Union member countries cooperate on development of unique learning program on safety at work in the field of lifting. Number of work related injuries in this field lowers.

Attendance of unique learning program on safety at work in the field of lifting which enables work mobility for all attendees has been enabled.

A concrete result is Safety Card format for a field of lifting. It is expandable f.ex. construction or for storage branch.

Safety Card includes f.ex.:

- ✓ Work-related risks, responsibilities, and attitudes influence of Understanding
- ✓ Site Supervisor and the importance of planning in the identification of lifting the work of the Crane and lifting services company
- ✓ Lifting Work and lifting equipment related legislation and Understanding safety instructions
- ✓ Signals and communication
- ✓ Leases in terms of insurance and to understand the work and lifting equipment safety risks
- ✓ Able to work in incidents and accidents
- ✓ Manages the necessary safety equipment use
- ✓ Students will perform also hot work card and First Aid training
